

"TitanCase XXL" - Transport Case 55x40x20 cm with Cube Foam & Combination Lock,
Color: Titanium Gray

€79.90

Prices incl. VAT plus shipping costs

Product number: CS00022TICB

Description

The TitanCase XXL is the ideal aluminum case for those who need a particularly spacious yet practical case. With generous dimensions of 55x40x20 cm, it offers an enormous amount of space, but at the same time meets the requirements for hand luggage and is therefore perfect for traveling. The case has a sturdy aluminum frame and durable sides made of composite material, which makes it particularly robust and lightweight at the same time. Inside, there is a tool-free customizable cubed foam that can be easily plucked and allows for precise customization to your valuable contents. Whether for tools, drones, pistols, or as a universal case – the TitanCase XXL protects your belongings safely and reliably. The integrated combination lock provides additional protection against unauthorized access and ensures that your belongings remain safe. Despite its generous size, the TitanCase XXL is easy to transport and, thanks to its compact dimensions, is ideal for mobile use without causing any problems when traveling. With its elegant titanium gray design and high-quality workmanship, the case offers both functionality and a professional look. The TitanCase XXL is the perfect solution for those who need a lot of space but don't want to compromise on flexibility and security.
